Equipment Need Requests:

Requests for aid in equipment purchases will be accepted. Any request must be accompanied by ticket statistics, by officer, for the current year to date or prior year. Equipment requests will be handled on a need based; first come - first serve basis. Any equipment provided by JTAC will become the ownership of the agency. Support will be limited to the eCWS software and configuration of the scanner only. The upkeep and maintenance of the equipment will be the sole responsibility of the receiving agency. The equipment and software will be accompanied by a memorandum of understanding between JTAC and the agency.
